# JavaScript Variables Assignment - GitHub Submission Guide

Submission Requirements

- Complete the JavaScript assignment (userInfo.js)

- Answer all questions (answers.txt)

- Submit via GitHub using your personal branch

Step-by-Step Submission Guide

1. Setup Git (First Time Only)

```
git config --global user.name "Your Full Name"
git config --global user.email "your@email.com"
```

2. Clone the Repository

```
git clone https://github.com/Skill-yards/Assignment-Submission.git
cd Assignment-Submission
```

3. Create Your Personal Branch

```
git checkout -b your-firstname-lastname
Example:
git checkout -b ashutosh-kumar
```

4. Add Your Files

1. Place these files in the repository folder:

   - **userInfo.js** (your JavaScript code)

   - **answers.txt** (question answers)

2. Verify files:

   git status

5. Commit and Push

```
git add .
git commit -m "Submission by [Your Name] - Variables Assignment"
git push origin your-firstname-lastname
```

6. Verify Submission

1. Visit: https://github.com/Skill-yards/Assignment-Submission

2. Check that:

- Your branch exists

- Your files appear correctly

- Code renders properly

Important Notes

- Do not push to main branch - only use your personal branch

- Filenames are case-sensitive: userInfo.js not Userinfo.js

- Test your code before submitting

- Submit early to avoid last-minute issues

Troubleshooting

Issue: Permission denied

Solution: Generate SSH key: https://docs.github.com/authentication

Issue: Branch not found

Solution: Verify exact branch name

Issue: Files missing

Solution: Check git status and git add
